## Experience

- 2024–2025 **Web Full-stack**, *Anthology*, Brno.  
Developing new features for education accessibility platform [Ally](#)
- 2022–2024 **Product developer**, *Freelance*.  
Directly assisting clients with tailored full-stack solutions "from analysis to analytics"
- 2019–2022 **Data Engineer**, *Kiwi.com*, Brno.  
Building and maintaining data pipelines, contributing to the formation of a data warehouse, and assisting with analysis and visualization, while ensuring data quality
- 2017–2019 **Web Frontend**, *InQool a.s.*, Brno.  
Creating custom web applications for e-shops. Notably, I've worked on [Brno iD](#)

## Education

- 2018–2020 **Artificial Intelligence and Data Processing\***, *Master's degree*, Faculty of Informatics, Masaryk University.  
\*Not formally finalized
- 2015–2018 **Computer Systems and Data Processing**, *Bachelor's degree*, Faculty of Informatics, Masaryk University.
- 2010–2015 *Technické lyceum*, Středná priemyselná škola, Bardejov

## Masters thesis

Title *Tool Supporting Analysis of Meteorology Data*

Supervisor RNDr. Tomáš Rebok, Ph.D.  
A newly built system allowing users to process and validate meteorological data while enhancing the analytical capabilities.

Url [Full text](#)

## Bachelors thesis

Title *Techniques for measuring similarity of educational items*

Supervisor doc. Mgr. Radek Pelánek, Ph.D.  
Using machine learning to measure the similarity of questions in tutoring systems utilizing only the correctness of answers from users.

## About

Even outside of work, I like to fill my time with a variety of projects, hobbies, and things to learn. I enjoy urbexing and working in nature, hanging out in unusual places, spending my time outside and around other people. Every couple weeks I play boardgames with my friends and hang out.

50+ small personal projects

## Skills

### Analytics

- SQL, BigQuery, Python,
- Statistics, Visualization,
- Jupyter, Grafana, DBT,
- Reporting, Dashboards.

### Data platform

- Airflow, PubSub, Kafka,
- GCP, PostgreSQL,
- Data quality, Alerting,
- Docker, Kubernetes.

### Product

- Tracking, Web analytics,
- AI, Machine learning,
- TypeScript, React,
- Unity, Game development.

*Languages* English (*Fluent*), Slovak (*Native*), Czech

## as Data Analyst

2025–2026 **Styloma**, *Fashion search engine*, own product.

User tracking data pipeline and web analytics feeding user embeddings and ranking; data quality rules tracked for every retailer feed

2022–2024 **Freelance**, *Na medicínu*.

Analytical tools for the owner: usage of the internal system, web and ad campaigns (Google Analytics); and for lecturers: students' usage of the system and their results

2019–2022 **Kiwi.com**, *Data platform*.

Tight cooperation with the whole analytical team on the data platform (GCP, BigQuery, Airflow): pipelines, warehouse, monthly reports, data quality monitoring and alerting

2016–2018 **Research**, *Adaptive Learning group, Faculty of Informatics, Masaryk University*.

Measuring item similarity from learner performance data and evaluating the measures across three programming environments; co-author of *Measuring item similarity in introductory programming*, ACM Learning at Scale 2018
